About

I have a strong foundation in machine learning, and data visualization. Proficient in Python and HTML/CSS, with familiarity in popular libraries like NumPy, Pandas, Matplotlib, Seaborn. Eager to apply my skills to drive business growth through data-driven decision-making. Passionate about learning and staying updated on industry trends, with excellent problem-solving skills and a strong work ethic.

Technical Skills

Languages: Python, HTML/CSS, SQL

Developer Tools: VS Code, PyCharm, Google Colab, Jupyter Notebook, MySQL.

Visualization Tool: Power BI, Tableau

Other Skills: Excel, Presentation, Visualization, Data Analysis.

Soft Skills: Communication, Teamwork, Problem Solving, Adaptability, Time Management

Education

Program	University/ Board	Institution	Year of Passing	% Obtained
B.E in Computer Engineering	University of Mumbai	SSPM, Kankavali	2025	75%
Higher Secondary Certificate(HSC)	Maharashtra State Board of Secondary And Higher Secondary Education, Pune	Dadashaheb Tirodkar Jr College, Pandur.	2021	91%
S.S.C	Maharashtra State Board of Secondary And Higher Secondary Education, Pune	New Shivaji High School, Jambhavade, Sindhudurg.	2019	87%

Experience

30-Days Power BI Micro Course – Skill Course E-Learning Platform | Online

March 2025

- Completed a 30-day course on **Power BI**, focusing on **data transformation**, **DAX functions**, and report building.
- Developed interactive **dashboards** and visual reports to generate actionable insights.

YBI Foundation – Data Science & Machine Learning Internship | Remote

March 2025

- Completed a certified internship applying **Data Science and Machine Learning** to real-world projects.
- Built and evaluated ML models using **Python, Pandas, NumPy, and Scikit-learn** with focus on **data preprocessing, training, and performance evaluation**.

Accenture – Data Analytics and Visualization Job Simulation | Remote

July 2024

- Completed a virtual job simulation on Forage, applying data cleaning, modeling, and visualization techniques.
- Developed skills in data storytelling and effectively presenting insights.

- Completed a course on **Machine Learning with Python**, covering key algorithms for **classification and regression**.
- Applied models using **Scikit-learn**, gaining hands-on experience in **building, evaluating, and improving ML models**.

Projects

Sales Analysis Dashboard | *Excel, Power Query, Power Pivot, Pivot Tables*

Sept 2025

- Performed **data cleaning** in Power Query and **data modeling** in Power Pivot for accurate analysis.
- Developed an interactive **dashboard** using Pivot Tables, Charts, and Slicers to visualize revenue, products, and customer trends.

SSPM Community Web Application | *MERN Stack (MongoDB, Express.js, React, Node.js)*

July 2024 – April 2025

- Developed a college-exclusive social platform connecting students and alumni for networking, collaboration, and opportunity sharing.
- Implemented secure user authentication, real-time messaging, skill-based group recommendations, and features like internship updates and event posts.
- Built responsive frontend with React, backend APIs with Node.js/Express, and MongoDB for data storage.

Car Price Predictor | *Python, Pandas, Scikit-learn, Jupyter Notebook*

August 2023

- Developed a Linear Regression model to predict used car prices based on features such as company, model, year, kilometers driven, and fuel type.
- Performed data cleaning, preprocessing, and feature engineering to enhance model performance.
- Visualized data and key insights using Pandas and Matplotlib to support analysis.

Languages

- English,
- Marathi,
- Hindi

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
